

INSULATED HYDROGEL™

ACCUTEMP PLUS™

A VERY GENTLE METHOD OF SECURING TEMPERATURE PROBES
TO SENSITIVE SKIN

It's here! A temperature probe cover designed with very sensitive skin in mind. Our special **Accutemp Plus Insulated Hydrogel™** formula is "skin friendly". The Accutemp Plus may be re-positioned and reapplied to help reduce product waste. Simply soften the **Insulated Hydrogel™** adhesive with a few drops of water for easy removal.

The **Accutemp Plus Insulated Hydrogel™** also serves as a superior barrier against both ambient and radiant heat, allowing the most accurate readings of the patient's true skin temperature.
